Objective:-

Highly motivated Communication and Computer Engineering student. I am passionate about joining the team as a Front-End Developer, with solid experience in building modern, responsive web applications using HTML, CSS, JavaScript, React, Tailwind CSS, and Bootstrap. I also have a good background in backend development and version control using Git and GitHub. I enjoy creating clean, user-friendly interfaces and bringing designs to life. This opportunity will provide me with the perfect opportunity to expand my skills while contributing to the team with my knowledge and enthusiasm.

Work Experience:-

• Intern - Tech Academy Managed and developed applications to meet customer requirements effectively

• Collaborated with clients to gather and analyze business requirements

• Coordinated with developers to ensure project delivery aligns with specified standards

• worked as web & app developer HTML, CSS , JS and flutter frame work

• Created a website for Pharmacy Product Management System

• Intern - Electricity Company, Tanta

Projects :

- ### E-Commerce Website
  Developed a fully responsive E-commerce frontend interface using **React**, **Tailwind CSS**, and **JavaScript**. The project features product

listings, filters, shopping cart functionality, and dynamic UI interactions simulating real-world online shopping experiences.

- **CRUD Application**
  Developed a functional CRUD (Create, Read, Update, Delete) app using **HTML**, **CSS**, and **JavaScript**, showcasing dynamic DOM manipulation and basic data handling.

- **IPhone Choices Project**
  A modern frontend application built to help users explore iPhone options, developed using Bootstrap, focusing on user experience and responsive design.

- **Company Landing Pages**
  Created multiple responsive company landing pages with **Tailwind CSS** and **Bootstrap**, practicing real-world UI structuring and layout principles.

- **Responsive Dashboard Interface**
  Built an interactive and clean admin dashboard using **HTML** and **CSS**, optimized for both desktop and mobile views with focus on layout and usability.

- **Planets Info Website**
  Designed and implemented an educational website about planets using **HTML** and **CSS**, featuring a fully responsive layout and intuitive navigation.

- **Adidas Egypt Website Clone**
  Developed a responsive, visually accurate clone of Adidas Egypt's website using **HTML** and **CSS**, ensuring cross-device compatibility and modern UI styling.

Education:-
Expected date pursing a degree in Communications and Computer Engineering : 2025
Higher Institute of Engineering and Technology , Tanta , Egypt

Skills:-
Language Skills :

- English (Upper intermediate Level)

- Arabic (mother tongue)

Computer Skills :

- HTML , CSS , javaScript, React , Next.js , Tailwind CSS , Bootstrap , Typescript, Git&Github. (front – end)
- Flutter frame work
- Microsoft word , Power Point (very good) and Excel (good)

Courses:-

- Front – end development course on Udemy (July 2021)
- React.js & Next.js & Redux on Udemy (Jan 2025)
- Dart OOP & Flutter course in Tech Academy.
- GSM,GPRS & EDGE on Udemy (Dec 2024)
- mobile packages fundamentals from udemy (August 2022)
